1

Clothes - simple and tasteful is always best. Try and avoid bold patterns or clothing with words, pictures or large recognizable symbols. Shoes should be clean-ish. Make sure what ever shoe you wear will accommodate the location and are comfortable to wear for an extended period.

2

Clothes should be ironed beforehand. If you're wearing something that wrinkles easily, don't wear it in the car on the way to the shoot - change at your location if possible.

3

A subtle application of make- up can soften your skin and accent your facial features. Stick to your normal application style! We want you looking like your beautiful self. If you wear lipstick/gloss make sure to bring it incase touch-ups are in order

4

Nail Polish. If you wear it, a fresh coat of polish prior to your shoot will make a world of difference.

5

If you plan on getting a haircut for your session, do so about a week or two beforehand. For men, a fresh cut a couple ays before the session is fine.
